Artist names are conditionally formatted in colors red (low), orange (medium), and green (high).

The criteria of this conditional formatting is based on the SUM of artist songs' Hot 100 longevity (e.g. the amount of total weeks their songs spent on the Hot 100 in aggregate).

My top number one song in this top 15 is beat it by Michael Jackson because this songs give me different vibe. My number two song is Flashdance What A Feeling by Irene Cara because this song make me feel very motivated. My number three song is kiss on my list by hall and oats because i like the beat it has on that song.

All out of Love by air supply is my number one song in top runners up by total weeks because this song is slow and i like to listen this kind of song, when i am doing homework. My number two song is making love out of nothing at all because i like the story it told on the song. My number three song is time by culture blub because how the song talks about passage of time in memories in love.
